

## **Digital Media – NPA Level 5 in S5/6**

The NPA in Digital Media at SCQF levels 5 introduces learners to techniques that are important in the digital media sector such as

- audio
- still images
- moving images

This work will be mainly project based and can be themed to individual interests of pupils e.g. sports, music, gaming, fashion, etc.

This NPA in Digital Media is suitable for:

- learners wishing to develop and enhance their digital media skills to support their learning across a wide range of curricular areas
- senior school pupils who will undertake one of the qualifications as a broadening of the Computing Science curriculum

These qualifications are also suitable for broadening the curriculum in the senior phase of school by providing all pupils with the experience of a contemporary technological subject and the opportunity to gain skills that can be used in future employment.

There is no formal exam. Assessment will be a combination of practical and knowledge assessments under closed-book and open-book assessment conditions.

Pupils who gain the NPA at Level 5 can progress next year to attempting the Level 6.
