UHI | PERTH

What should I consider?

- Experience College/University learning as part of your school timetable
- Gain skills and confidence
- Boost CV
- Add to school qualifications
- Decide on a career path
- Travel time
- Consider all subjects
- Check University entry requirements
- Speak with Guidance Teacher, Parent/ Carer or College Staff

Feedback from pupils

“It’s good to learn about a new topic which I find interesting and is not available at school.”

Esme

“I am enjoying the course so far and the best parts are how nice our tutors and lecturers are, as well as getting to mix with pupils from different schools and year groups.” Holly

“I chose this course because it looked interesting, and I felt like the course would help me in life. I am enjoying the course and I like learning new things in this environment.”

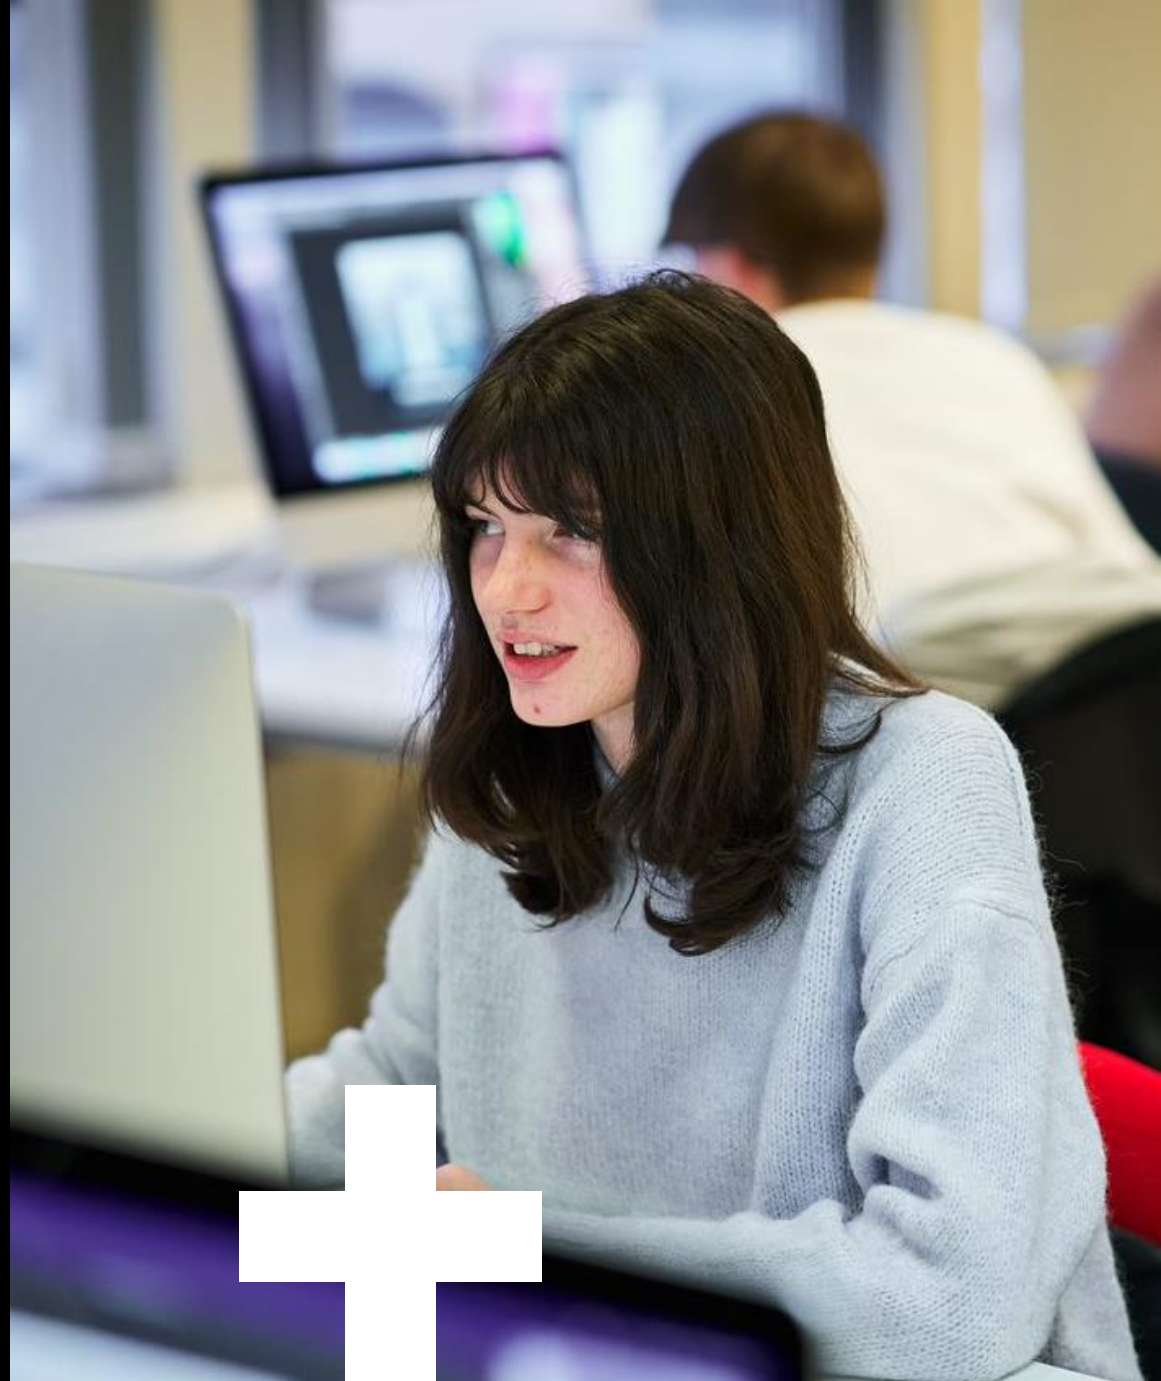

Malcolm

- NHS
- RSPB Kinross
- Scottish Crannog Centre

Lara's Story

“Through the guidelines I learned via my apprenticeship, I was able to do my job in a safe manner.... I also applied my apprenticeship learning just by adopting to be reflective and being more knowledgeable about the way of practice and how to hold professional relationships with patients which are kind, friendly and welcoming - person-centred care.”

Lara's apprenticeship has influenced her progression from high school and college (FA) to university, more specifically the University of Aberdeen where she now studies a degree in the Master of the Arts Psychology and two electives in Sociology and Philosophy.
